

Looking for better hearing aids?

- Here's one you can afford

Ergo BTE Power

oticon

ergo!

The right choice

For people who depend on their hearing aids

Ergo BTE Power is a powerful new mini BTE for people who need high performance, high amplification hearing aids. If you need more power from your in-the-ear aids, or are considering upgrading to a more versatile power BTE, ask your hearing care professional about trying Ergo. You'll hear the difference immediately!

Excellent sound - no whistling

Ergo BTE Power offers a rich non-distorted sound picture, which can be finely tuned by computer to match your sound preferences. Ergo contains a special new microchip that provides comfortable protection against sudden loud sounds - plus an advanced feedback management

system that prevents the instrument from whistling, even when you turn up the volume.

High reliability

Nothing is more annoying than a hearing instrument that breaks down. Ergo has been specifically designed for robotic production, with fewer

individual components and very high reliability. A special internal coating of all components also makes it resistant to moisture damage. The result is an instrument which has rapidly gained a reputation as one of the most reliable ever.

Good looks and ergonomics

Ergo BTE Power is one of the smallest, lightest and slimmest BTE instruments available. Thanks to the push-button telecoil and the "press and slide" on/off switch, it's also extremely easy to use.

Ergo BTE features a unique new "press and slide" on/off switch and push-button telecoil control.

Accessories

- Adaptor for wireless FM systems
- Direct audio input adaptor
- Full range of colors
- Special pediatric hook
- Tamper-resistant volume control and battery drawer

Better Performance at an Affordable Price!

Are you looking for an affordable alternative to digital technology, designed specifically for severe hearing losses? Then here it is!

Take a look at Ergo BTE Power, by Oticon.

Ergo offers top quality performance with all the power you need. Ergo is reliable, easy to use, and provides you with a comfortable, well-balanced sound.

Hear the difference for yourself. Arrange an appointment with your hearing care professional and try Ergo BTE Power!

Your Oticon Hearing Care Professional:

NOTE: Not everyone with a hearing difficulty is a candidate for hearing instruments, and the benefits of amplification may vary. Oticon strongly recommends that you consult your hearing care professional to fully discuss the benefits and limitations of hearing instrument use.
